- Increasing opportunities for securing a job, career advancement, and increased earnings

Why CMC?

The only nationally recognized certification specifically for Care Managers

The National Academy of Certified Care Managers is a non-profit national credentialing organization founded in 1995. The purpose of NACCM is to advance the quality of care management services to consumers by ensuring that care managers are competent to perform the full range of care management tasks. This is accomplished through a validated, standardized examination that tests the skills, knowledge, and practice ethics of professionals providing care management services.

Not only does certification benefit YOU ...

It also benefits your clients, patients, and their families, as well as your current and future employers.

Credentials are an effective way to advance within the fastest growing professions.

—*Institute for Credentialing Excellence*

“As a growing Aging Life Care™ Management practice, we are committed to having all our employees become certified care managers. The CMC certification offered through NACCM gives the ‘seal of approval’ to our clients and families that our Life Care Managers have the required skills and uphold the highest practice standards.”
